Allowable Subject Matter

1. Claims 30-34 are allowed.

2. The following is an examiner's statement of reasons for allowance: The prior art of record, neither anticipates nor renders obvious the following limitations as claimed:

[Claim 30]: A color image pickup device formed on a single semiconductor chip comprising:

".... a block storage circuit for storing analog image data sent in parallel by the reading circuit from a target basic block unit of the photodetectors, and from the basic block units of photodetectors neighboring the target basic block unit, wherein the number of stored analog image data bits is smaller than the number of photodetectors included in the image pickup element;

an interpolation circuit, which is operable upon the analog image data stored in said block storage circuit, to perform interpolation for each one of the photodetectors of the target basic block on the basis of the stored analog image data read out from adjacent photodetectors having color filters of the same respective colors, wherein after a termination of the interpolation for each of the photodetectors of the target basic block unit, in order to perform the interpolation for the next target basic block unit, the block storage circuit performs the storing of the analog image data to replace the analog image data of the basic block units of the photodetectors neighboring the target basic block unit with the analog image data of other basic block units of the photodetectors neighboring the next target basic block unit; and

a signal processing circuit for receiving analog image data outputted from the interpolation circuit, and for subjecting the analog image data to a

processing of at least one of color gain adjustment, low-frequency filtering, and edge enhancement, and for outputting processed analog image data as the output of the color image pickup device,

wherein the block storage circuit, the interpolation circuit, and the signal processing circuit are formed on one semiconductor chip together with the image pickup element”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
